SOCIALISTS FACE SPLIT IN PARTY

Radicals Suspended by National Executive Committee Threaten Reprisals.

(From the Christian Science Monitor.)
Lansing, Mich., June 18.—Plans are rapidly taking shape for the staging in Michigan this summer and the coming fall of one of the most stubborn fights in the history of American politics. The contest will be limited to the rank and file of the Socialist party in the State, which claims several thousand members, but its nature is such as to arouse deep interest in all quarters.

The issue concerns whether the Socialist party in Michigan shall be controlled by the "right wingers," who stand for moderation and the gaining of all political ends by the "left wingers," who have thrown agitation to the dogs and declare that nothing can satisfy now but a social and industrial revolution, accomplished through violence, and the sooner the better.

How the Socialist party in Michigan, at its recent State convention, indirectly lined up with the "left wingers" will be explained later. As a result of this action, the entire Socialist organization in Michigan was expelled from the National Socialist party at a meeting of the national executive committee at Chicago, on May 28.

Word has come to national headquarters that the Michigan Socialist radicals, ignoring their expulsion, are preparing a State ticket to put up in coming elections.

Nicotol
STOPS TOBACCO HABIT

Dr. Connor, formerly of Johns Hopkins Hospital, who uses Nicotol in his practice, says: "The terrible craving for tobacco in any form may be quickly overcome by the simple use of Nicotol. It is not a substitute, it is absolutely harmless in every way and contains no habit-forming drugs. The tobacco user does not quit the habit, but the habit quits him—the desire for tobacco vanishes and the victim is released from the slavery of nicotine without effort or inconvenience on his part." Read Dr. Connor's full statement, soon to appear in this paper.

Note: Nicotol tablets are sold in this city under non-refundable money-back guarantee by People's Drug Stores and all other up-to-date druggists.—Adv.

For Mosquito Bites
From time immemorial certain aromatic oils have been rubbed on the skin to keep mosquitoes away. For equally long period alkalies have been applied to the bites to neutralize the poison of the stings. No one ever thought of combining the two—aromatic oils and alkalies—but Tyree's Antiseptic Powder, the great germ destroyer, is aromatic and alkaline at the same time. Excellent also for preventing and destroying the bites and stings of mosquitoes and all insects. Excellent also for Poison Oak, Prickly Heat, etc. etc. etc. For sale in three sizes—small, medium and large—by all drug and department stores. Remember the name—TYREE'S—accept no other.

"Good Morning, Judge"

Human Interest Stories of Police Court Happenings and Other News of the Courts.

Stolen Time.
Eight years ago, when Irene Murray was married, she received a wedding present of a fine parlor clock.
It kept perfect time until a few days ago, when it went dead.
Joe Bolton, who roomed with Irene, was asked to fix it. He hesitated at first, saying he knew little about machinery.
Then Irene got busy herself, and lo, "innards" of the clock were gone.
She thought it rather queer that Joe never mentioned this state of affairs to her after he had tried his hand at fixing the clock.
Irene had Joe locked up and charged him with stealing the clock's gizzard.
He denied it at first, but afterward admitted he had robbed the timepiece of its inner works and hooked them for \$3.
He needed money to pay his insurance, he said, and had to get it quickly.
The court was at first inclined to let him do a little time for stealing Irene's time, but he agreed to get the works back very soon.
The court was very fined him \$15 or fifteen days.

Robbed Baby's Bank.
Charlotte Bowe, colored servant, was sentenced ninety days in jail yesterday morning for robbing a baby's bank.
The woman was employed by Mrs. Betta W. Smith. Several times a metal bank belonging to Mrs. W. Smith's child had been looted, and she called in Detective Bradley to investigate. The detective placed marked money in the bank, and the servant was caught with it in her possession.

Three Damage Suits Filed.
Linda M. Bohannon sued the Washington Railway and Electric Company yesterday for \$10,000 damages, alleging severe personal injuries while boarding a car on H street northwest, November 11 last. Her attorneys are Lambert and Yeatman.
Sarah M. Greer sued G. G. Cornwell's Sons, grocers, yesterday for \$20,000 damages, alleging that a truck belonging to the firm ran her down on Fourteenth street northwest, December 9 last. Her attorney is F. L. Neubeck.
E. P. Antonovich sued Eugene Meyer yesterday for \$5,000 damages, alleging that he was injured when an automobile belonging to Meyer ran into him. Antonovich is represented by Attorneys Lambert and Yeatman.

Stolen Money.
Nathaniel Krupaw, dealer in antique furniture, 27 Pennsylvania avenue northwest, who was sued for a separation recently by Mrs. Rachel Furr Krupaw, denied his wife's charges of cruelty and drunkenness yesterday. His answer to Mrs. Krupaw's petition. Mrs. Krupaw charged her husband with spending his money in riotous living and squandering over \$1,000 a month on liquor in this city and Philadelphia. The judge also charged him with putting her out of her home into the street.

Janitors' Union "Jan" Locks.
Apartment house janitors are not privileged to enter the basement lockers of tenants.
Henry Sheidrake, 76 years of age, janitor at the Baltimore Apartments, was fined \$5 yesterday morning and put on probation for breaking into the locker of Mrs. Mary Harris, of Apartment 29 of the Baltimore. The janitor also charged that he was attempting to substitute his own lock for the one Mrs. Harris had.

So Big And Yet So Small!

Seen by itself, Swift & Company is one of the largest manufacturers and distributors of animal food products in the country.

Seen in relation to the total food business of the world, its size diminishes to small proportions.

We handle only about 22 per cent of the total output of the hundreds of packing plants under federal inspection, and only about 12 per cent of the total meat supply of the nation.

We handle only about 6 per cent of the total quantity of butter, eggs, and poultry sent to market in the United States.

Our tanneries handle less than 15 per cent of the hides made into leather in the United States.

Our soap factories make less than 10 per cent of the soap output of the nation.

This is done in keen and open competition with every concern handling these products, and at a profit of a fraction of a cent per pound.

In the meat packing industry there is no one dominant concern handling a large proportion of the output.
